

### List of Damaged Items:

- Wooden Coffee Table: One leg clean snapped off an antique coffee table which at the time of pick up was in extremely good and solid condition. It is a family antique and quote for repair service is \$90.

- Wooden Sideboard: 3 of the 4 feet on this sideboard, also in good condition, broken off and missing. Waiting for a quote for the cost to replace parts and repair.

- Wooden Dresser: One bottom piece of dresser broken off, with two of the legs on it. Joint on that side has a noticeable crack in it. Veneer missing from both bottom parts of dresser.

- **Wooden Futon:** Movers in NY disassembled this futon and most assembly parts (screws and bolts) were missing at the time of delivery. Movers in CA couldn't reassemble upon delivery. We are currently searching in stores and online for the replacement parts for this \$500 custom piece of furniture.
- **Wooden Dinning Table:** Tip of one of the legs was broken off after one of the movers tried to lift this heavy, in very good condition, table while grasping the end leg.
- **Wooden Corner Shelf:** This antique corner shelf arrived in pieces. This was the only piece of furniture we were warned about, by the movers in NY, that it might not make it in one piece.

#### Missing Furniture:

- **Red Wooden Side Table:** This table was not delivered. We have no choice to buy a replacement item. May indicated on 7/23 that it was broken during the moving process. We don't understand why it wasn't delivered along the other broken furniture, in which case we would've had the choice to try to repair it.
