

Lorraine,

It was nice to speak to you today regarding our items. I have listed links and photos of what is missing. Please let me know if this is what you were looking for.

The Interlocking floor mats. The link here at amazon is the closest color pattern that we have. They were primary colors. I had them cling wrapped in groups of 12 – total 24 mats. Size was 24x24 per mat. Inside one package was a Founder Beer metal sign as well. The plastic wrap I used was green tinted.

Amazon replacement is 27.19 for packs of 4. Total to replace would be 163.14 plus shipping and tax.

One Founders Brewing Co. Tin Sign - 20"x 15" was inserted in the floor mats. Replacement of this is around \$40

The couch feet total was 13. For the left side and right side and 5 for the center piece.

4" Highx4-7/8" OD Solid Hardwood Round Bun Feet stained walnut.

I did replace these today from Lowes with 4" high square leg as I could not find these specific ones. I am attaching what I purchased and the price.

Replacement: <https://www.lowes.com/pd/Waddell-Farmhouse-Square-Bun-Foot-Small/5001805529> COST PER LEG WAS 6.89 or 89.57 plus tax

The college/bar fridge was all stainless, was situated in the large buffet with the granite top on it. This was wrapped by movers in Beecher Illinois. I did confirm it was with the items on facetime call.

Compact Refrigerator, Dual Door Fridge, Adjustable Mechanical Thermostat with True Freezer, 3.1 Cu.Ft, Stainless Steel. These run from 200 – 450 each.

Finally, the seat cushion from our green swivel chair. This is the hardest to find a good description. I have the photo of the chair without the cushion. You can see the fabric and shape. Also, the damage to the arm.

The legs of this chair and the legs of the other chair were not removed when they left our home in Beecher IL and they arrived with the legs attached. Unlike the couch. Those legs were not removed in Beecher, but never made it here to Denver.
